

About Johnson & Johnson

At Johnson & Johnson, we believe good health is the foundation of vibrant lives, thriving communities and forward progress. That's why for more than 130 years, we have aimed to keep people well at every age and every stage of life. Today, as the world's largest and most broadly based healthcare company, we are committed to using our reach and size for good. We strive to improve access and affordability, create healthier communities, and put a healthy mind, body and environment within reach of everyone, everywhere. .

Every day, our more than 130,000 employees across the world are blending heart, science and ingenuity to profoundly change the trajectory of health for humanity.

Medical Devices

At Johnson & Johnson Medical Devices Companies, we are using our breadth, scale and experience to reimagine the way healthcare is delivered and help people live longer, healthier lives.

In a radically changing environment, we are making connections across science and technology to combine our own expertise in surgery, orthopaedics, vision and interventional solutions with the big ideas of others to design and deliver physician and patient-centric products and solutions.

As pioneers in medical devices, we continually focus on elevating the standard of care—working to expand patient access, improve outcomes, reduce health system costs and drive value. We create smart, people-centered healthcare to help the patients we serve recover faster and live longer and more vibrantly.
